

Bullet Ice Maker BTIM-A10

Website: www.icemaker.cc

Email: info@icemaker.cc

Overview

Bullet Ice Maker BTIM-A10 is a microprocessor-controlled unit and designed to produce 20kg of ice per 24 hours. It features an ice bin with a storage capacity of 5 kgs and ensures a steady supply for intermittent or continuous use. It produces a neat cylindrical shape, with smooth, high-quality transparency that enhances both visual appeal and performance. Our ice maker offers multiple output options for different requirements across a wide range of industries.

Features:

- Crafted with stainless steel
- Automatic shutdown function
- Equipped with fluorine-free compressor
- Adopts side air inlet and outlet
- One-click startup

Applications:

Bullet Ice Maker is designed to produce bullet-shaped ice cubes quickly and in large quantities. It is ideal for home kitchens, offices, bars, restaurants, and medical and healthcare facilities.

Specifications :
