

Scale Ice Maker SCIM-A12

Website: www.icemaker.cc

Email: info@icemaker.cc

Overview

Scale Ice Maker SCIM-A12 is a microcomputer-controlled and delivers 500kgs of high-quality scale flake ice. It is equipped with ice bin storage with a capacity of 210 kg ensuring consistent supply. Our ice maker is designed with an air cooling system for energy efficiency and optimal performance. It is equipped with a digital control panel for real-time monitoring and navigating various parameters.

Features:

- Microcomputer controlled
- Crafted with SUS material
- Alarms for water shortage
- Utilizes ecofriendly refrigerant
- Overload protection

Applications:

Scale Ice Maker produces ice in the form of thin, flat flakes and is utilized in food processing and preservation, medical and pharmaceutical, concrete cooling, beverage industry, animal care and aquaculture.

Specifications :

Capacity	500 kg/24 h
Ice Bin Storage	210
Type	Scale Flake
Cooling Method	Air Cooling
Refrigerant	R134A/R4044
Power Supply	220 V / 50 Hz
Power Consumption	2000 W
Dimension	760 × 870 × 1950 mm
Weight	182 kgs
